Louisiana Board of Pharmacy

Subject: **Regulatory Project 2026-07 – Pharmacy Interns Professional Experience**

The Louisiana Board of Pharmacy seeks to amend Section 705 of its rules relative to Pharmacy Interns Professional Experience. The proposed rule change seeks to change to licensure requirement for a pharmacist supervising a pharmacy intern from two years to one year.

To facilitate the Department of Justice's review of the proposed rule, the Louisiana Board of Pharmacy provides answers to the following questions.

1. Describe any relevant factual background to the occupational regulation and the purpose of the occupational regulation?

The proposed rule change follows recent changes in Sections 1105 and 2307, which decreased the minimum experience requirement for a pharmacist to qualify for a Pharmacist-in-Charge privilege from two years to one year. The board determined that the same experience requirement would be sufficient for a pharmacist supervising a pharmacy intern.

2. Is the occupational regulation within the scope of the occupational licensing board's general authority to regulate in a given occupation or industry? If so, identify the law that provides the authority for the rule and describe how the occupational regulation is within the scope.

Yes.

LA R.S. 37:1164. Definitions.

(41) "Pharmacy intern" means an individual who is:

- (a) Engaged in the practice of pharmacy while under the direct and immediate supervision of a pharmacist for the purpose of obtaining practical experience for licensure as a pharmacist and is satisfactorily progressing in a board-approved college of pharmacy.
- (b) A graduate of a board-approved college of pharmacy or a graduate who has established educational equivalency through a program approved by the board.
- (c) A qualified applicant awaiting examination for licensure.
- (d) An individual participating in a residency or fellowship.

(46) "Preceptor" means an individual who is currently licensed as a pharmacist by the board, meets certain qualifications as a preceptor as established by the board, and participates in the instructional training of pharmacy interns.

LA R.S. 37:1182(A). Powers and duties of the board. The board shall be responsible for the control and regulation of the practice of pharmacy and shall:

- (1) Make necessary rules and regulations to carry out the purposes and enforce the provisions of this Chapter and furnish copies of them upon request.

(9) Establish and enforce compliance with professional standards and rules of conduct of pharmacists engaged in the practice of pharmacy.

3. Check all the following that apply as reasons the occupational regulation is subject to review.

- ☒ [X] Creates a barrier to market competition.
- ☐ [] Fixes prices, limits price competition, or results in high prices for a product or service provided by or to a license holder.
- ☐ [] Reduces competition or excludes present or potential competitors from the occupation regulated by the board.
- ☐ [] Limits output or supply in this state of any good or service provided by the members of the regulated occupation.
- ☐ [] Reduces the number of providers that can serve a particular set of customers
- ☐ [] Changes existing requirements for licensure, certification, registration, etc.
- ☐ [] Other activity (please describe)

A licensed pharmacist without the necessary experience would not qualify to supervise a pharmacy intern, thereby creating a barrier.

4. Identify the clearly articulated state policy (e.g., health, safety, welfare, or consumer protection) in state statute, or any supporting evidence of the harm the action/proposed action is intended to protect against?

*The purpose of the Louisiana Pharmacy Practice Act, as stated in **LA R.S. 37:1163**, is to promote, preserve, and protect the public health, safety, and welfare by and through the effective control and regulation of the practice of pharmacy; the licensure of pharmacists; and the licensure, permitting, certification, registration, control, and regulation of all persons or sites in or out of this state that sell drugs or devices to consumers and/or patients or assist in the practice of pharmacy within the state.*

5. Do any less restrictive alternatives to the occupational regulation exist for addressing the same harm? If so, include a comparison of the occupational regulation to the alternatives and a justification for not pursuing a less restrictive alternative. If no less restrictive alternatives exist, explain why.

No, the proposed rule change is less restrictive than the current rule.

6. Describe the process that the occupational licensing board followed in developing the proposed rule, including any public hearings held, studies conducted, and data collected or analyzed.
