Re: Report No. 1 of 3 for Regulatory Project 2024-05 ~ Pharmacy Technicians

Dear Senator Henry:

The Board seeks to amend Sections 901, 903, and 905 of its rules relative to pharmacy technicians. The proposed rule changes in Section 901 remove the definition of Training Program and instead define Pharmacy Technician Educator. The proposed rule changes in Section 903 expand the eligibility criteria for obtaining a pharmacy technician candidate registration, modifies the language under exceptions to provide clarity, describe actions to be taken in the event the pharmacy technician candidate is no longer training, and describe requirements of the training to be provided by the pharmacy technician educator. The proposed rule changes in Section 905 correct a typographical error and clarify that the notification of a change of employment must include the pharmacy name.

In connection with this regulatory project, the following items are appended:

- Notice of Intent
- Fiscal & Economic Impact Statement

As indicated in the solicitation, we will convene a public hearing at 9:00 a.m. on Monday, August 26, 2024 to receive public comments and testimony on these proposed rule changes. We will summarize those comments and our responses thereto in our next report to you. In the event you have any questions or need additional information about this project, please contact me directly at jfontenot@pharmacy.la.gov or 225.925.6481.

FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES

The following information is required in order to assist the Legislative Fiscal Office in its review of the fiscal and economic impact statement and to assist the appropriate legislative oversight subcommittee in its deliberation on the proposed rule.

- A. Provide a brief summary of the content of the rule (if proposed for adoption, or repeal) or a brief summary of the change in the rule (if proposed for amendment). Attach a copy of the notice of intent and a copy of the rule proposed for initial adoption or repeal (or, in the case of a rule change, copies of both the current and proposed rules with amended portions indicated).

The proposed rule changes expand the eligibility criteria for obtaining a pharmacy technician candidate registration by providing alternatives to a board-approved, nationally-accredited pharmacy technician training program. The proposed rule changes in Section 901 remove the definition of Training Program and define Pharmacy Technician Educator, which includes a board-approved, nationally-accredited training program, a Louisiana Department of Education program with a pharmacy technician career path, and a Louisiana licensed pharmacist providing training in a permitted pharmacy. The proposed rule changes in Section 903 provide qualifications which must be met in order to obtain a Pharmacy Technician Candidate credential through each type of Pharmacy Technician Educator, change the wording for exceptions to provide clarity, describe actions to be taken in the event the pharmacy technician candidate is no longer training, and describe requirements of the training to be provided by the pharmacy technician educator. The proposed rule changes in Section 905 correct a typographical error and clarify that the notification of a change of employment must include the pharmacy name.

- B. Summarize the circumstances, which require this action. If the Action is required by federal regulation, attach a copy of the applicable regulation.

The proposed rule amendments are in response to a pharmacy technician workforce shortage and requests from pharmacists expressing their wishes to be allowed to provide on-the-job training without the pharmacy technician candidate being enrolled in a board-approved, nationally-accredited training program. Further, the providers of the board-approved pharmacy technician certification examinations no longer allow a person to take the examination without completion of a training program or obtaining hours of experience prior to the examination. Since this change by the providers effectively eliminated the option to successfully complete the examination without formal training, LBP deemed it necessary to amend its rules relative to pharmacy technicians.

- C. Compliance with Act 11 of the 1986 First Extraordinary Session

- (1) Will the proposed Rule change result in any increase in the expenditure of funds? If so, specify amount and source of funding.

LBP has allocated \$1,500 for printing the Notice of Intent and the Rule. LBP operates on self-generated funds.

- (2) If the answer to (1) above is yes, has the Legislature specifically appropriated the funds necessary for the associated expenditure increase?

(a) _____ YES. If yes, attach documentation.

(b) X _____ NO. If no, provide justification as to why this rule change should be published at this time

LBP operates on self-generated funds, and they have determined the proposed rule changes are in the public's best interest.
