

**FISCAL AND ECONOMIC IMPACT STATEMENT  
FOR ADMINISTRATIVE RULES**

**RULE TITLE: Licensed Psychological Associate**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO  
STATE OR LOCAL GOVERNMENT UNITS (Summary)**

There are estimated implementation costs for the Louisiana State Board of Examiners of Psychologists associated with promulgating the proposed rule. The board anticipates a one-time technology expense ranging from \$15,000 to \$35,000 in FY 27 to develop online application and renewal functionality for the new license type. No additional implementation costs or savings are anticipated for other state or local governmental units. Publication expenses for the Notice of Intent and final rule in the Louisiana Register are anticipated at approximately \$1,783 in both FY 25 and FY 26.

Proposed rule adopts new regulations under LAC 46: LXIII, Subpart 3, to implement Act 286 of the 2024 Regular Session, creating a new license category for licensed psychological associates (LPAs). These rules establish licensure requirements, application procedures, supervised practice standards, fees, ethical standards, and ongoing education criteria for LPAs—master’s level clinicians who practice under supervision of a licensed psychologist or medical psychologist. The rules are intended to increase access to mental health services in Louisiana, particularly in underserved areas, by creating a defined path for qualified non-doctoral professionals to lawfully provide psychological services.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE  
OR LOCAL GOVERNMENTAL UNITS (Summary)**

The proposed rule establishes licensure for a licensed psychological associate (LPA) and creates a fee schedule for application, examination, renewal, reinstatement, and administrative processes. It is anticipated that revenue collections for the Louisiana State Board of Examiners of Psychologists will increase as a result of the new license. Applicants for the LPA license will pay a one-time application fee of \$200, a one-time jurisprudence examination fee of \$75, and an annual renewal fee of \$200. Louisiana anticipates approximately fifteen (15) applicants per year from the three (3) universities that offer a terminal master’s program in psychology. Additionally, individuals who graduated prior to enactment of Act 286 of the 2024 Regular Session may qualify under provisions for legacy licensure, reciprocity, endorsement, and military licensing. While the Board cannot provide specific data, the requirement that applicants undergo a criminal background check may result in an indeterminable increase in revenue collections for the Louisiana State Police.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO  
DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR  
NONGOVERNMENTAL GROUPS (Summary)**

It is anticipated and intended that the proposed rule will positively benefit individuals qualifying for LPA licensure. It creates expedited licensure pathways for those licensed in other U.S. jurisdictions, individuals moving back to Louisiana under the Welcome Home Act, and active-duty military members and their dependents. Qualified individuals who become licensed psychological associates will expand their employment and independent practice opportunities.

The proposed rule will have the potential to address mental health care needs in Louisiana by increasing the number of professionals qualified to provide psychological services to the citizens of Louisiana through private practice and other organizations or governmental systems.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT  
(Summary)**

The proposed rule is anticipated to have a positive impact on employment by creating a new licensure pathway for individuals with a master’s degree in psychology through the licensed psychological associate (LPA) credential, as established by Act 286 of the 2024 Regular Session. This credential allows professionals who previously did not qualify for independent or supervised practice under existing psychology licensure rules to now enter the behavioral health workforce. The rule outlines requirements for supervised practice, examination, continuing education, and ethical standards, thus providing a clear and regulated pathway to licensure for a previously ineligible group of psychology graduates.

By decreasing licensure barriers and formalizing the role of LPAs within Louisiana’s behavioral health system, the proposed rule is estimated to increase access to care in underserved communities and settings that experience provider shortages. Proposed changes may lead to increased availability of mental health services and greater employment opportunities across the state for both new licensees and supervising psychologists. The structured supervision and tele supervision provisions further support employment growth by allowing flexible practice arrangements.
